Professional Summary

Front-End Developer with hands-on experience in building responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap. Strong knowledge of UI/UX, semantic HTML, and Git. Passionate about modern frameworks like React and always eager to learn backend technologies.

Technical Skills

- HTML, CSS, Sass
- JavaScript, React
- Bootstrap
- Tailwind CSS
- C# Fundamentals
- npm, Git, GitHub
- Word, Excel
- Visual Studio, VS Code, Postman

Additional Skills

- ICT Teacher
- Data Entry

Projects

Portfolio Website with Admin Dashboard (HTML, CSS, JavaScript) Jun 2025 – Aug 2025

- Built a responsive portfolio site with an interactive dashboard to add, edit, and delete projects and skills.
- Implemented user login and registration with dynamic user display.
- Created a messaging system with message management and activity logs.
- Used vanilla JavaScript and localStorage for data handling and persistence.

Advanced To-Do List (HTML, CSS, Sass, JavaScript) Jul 2025 – Aug 2025

Advanced To-Do List is a modern and feature-rich web application designed to help you organize your daily tasks efficiently.

It offers task categorization, priority settings, and a responsive interface to ensure productivity on any device.

The app uses Local Storage to save your tasks so they remain available even after you close your browser.

Project Link: <https://advanced-to-do-list-three.vercel.app/>

E-commerce Website (HTML, CSS, JavaScript, Local Storage) Jul 2025 – Aug 2025

Built a fully responsive and interactive E-commerce web application with user authentication (register/login/logout), product listings, favorites, and a shopping cart. Implemented **Local Storage** to persist users, cart items, and favorites, ensuring seamless user experience across sessions.

Features include dynamic header navigation, responsive dropdown menus, and toast notifications for real-time feedback.

Advanced Calculator (HTML, CSS, JavaScript) Jul 2025 – Aug 2025

Developed a feature-rich **Advanced Calculator** web application with a modern responsive UI.

Implemented basic and advanced mathematical operations including square root, power, percentages, and trigonometric functions.

Integrated **Dark/Light mode toggle** and a calculation **history log** for enhanced usability.

Optimized for responsiveness across devices and leveraged **JavaScript Local Storage** to persist history.
