Portfolio: https://hamed-personal-portfolio-yuqk.vercel.app

Summary

Full-Stack Developer (MERN Stack) with hands-on experience building scalable, secure, and ATS-compliant web applications. Skilled in React.js, Node.js, Express.js, MongoDB, and JWT authentication. Strong focus on clean code, RESTful APIs, role-based access control, performance optimization, and responsive UI development.

Technical Skills

Frontend: React.js (18), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Sass

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC

Database & Tools: MongoDB, Mongoose, MongoDB Atlas, Git, GitHub, Postman, npm, Vite

Concepts: CRUD Operations, State Management, Secure Authentication, Responsive Design, Clean Architecture

Technical Projects

ProManager – Advanced Project Management Platform

- Developed a full-stack MERN project management system with secure JWT authentication and role-based access control. - Implemented admin and user dashboards with protected routes and session persistence. - Built full CRUD lifecycle for projects with advanced filtering, real-time search, and smart deadline tracking. - Designed a responsive glassmorphism UI optimized for desktop and mobile devices. - Integrated MongoDB with Mongoose and implemented secure file uploads using Multer.

- GitHub Frontend: https://github.com/hhaamed74/promanager-frontend

- GitHub Backend: https://github.com/hhaamed74/promanager-api

Hamed Store – E-Commerce Platform

- Built a full-featured e-commerce platform with product management dashboard and shopping cart persistence. - Implemented secure authentication, protected routes, and responsive UI.
